

vacation rentals

IATI provides new revenue opportunities for its registered agencies

## Increase your profits as a distributor and provider!

With its **Vacation Rental** module, IATI will enable its registered agencies to generate revenue streams by offering a new accommodation product and also enabling the same agencies to distribute the content of the selected properties in their area.

Agencies can register, upload information and manage price and availability of the vacation rental properties in an easy and effective way.

IATI travel agencies will be also able to search and shop between thousands of selected price competitive and high quality properties around the globe.

# sales

The new travel product of "**Vacation Rentals**" will be available soon in your familiar interface under the icon of "vacation rentals" on the IATI Agent interface desktop.

Search, filtering, auto complete and other relevant features that have been IATI standards will be available in the "**Vacation Rentals**" feature.

Agents will also receive the 24 / 7 call center support regarding that new product.

# registering vacation rental content

IATI agencies will be able to register, upload and manage properties from the

<https://provider.iati.com>

designated web interface.

Besides the web based interface, same capability will be provided from the “**iati provider**” Mobile Application that could be downloaded from App Store and Google Play.

Information on how to build an effective inventory, the legal procedures, registration in IATI system can be obtained from the Alternative Travel Services department of IATI.

Properties that have been approved by IATI Quality Control Department will be available for instant sales.
